

Novelties go quickly. There's a new Crazy Patch Bed Comfortable; looks like a silk quilt; costs 50 cents, 75 cents, \$1 and over. We didn't mean to sell it yet awhile, but a lady came up while they were being placed on shelves.

"Oh, my! Isn't that pretty? A silk—why, no, it isn't silk either. Only a dollar for this one? Well, I declare! I thought it would be four or five dollars."

And she bought four, and sent some friends down, and then— they've been going that way ever since.

Parasols for a song this week. Silk-Line Fine Spanes, with four-inch all-silk Spanish guipure fringes, all latest designs in hand-lace, \$2.75.

An odd lot of handsome Coach-Parasols at \$1.50; never offered in St. Louis under \$2.50.

ST. LOUIS
LATEST EDITION
CAPTURED AT KENTLAND.

TWO INCENDIARIES RESPONSIBLE FOR THE CHATSWORTH DISASTER.

The Prisoners Have a Hearing, and Are Confronted with the Charge of Burning the Bridge at Chatsworth—Two More Deaths—The Wreck Burned—Important Statement of a Citizen of Chatsworth.

By Telegram to the POST-DISPATCH. CHATSWORTH, Ill., August 15.—Yesterday afternoon at 3 o'clock the torch was touched to debris of wreck at Chatsworth, and nothing remains of it but smoldering ruins. The cars were so badly smashed that it was cheaper to burn them. The wrecking train left here for Peoria at 4 o'clock. It included the body of the wrecked locomotive loaded on trucks and the water tank loaded on flat cars, besides cars loaded with other material, and the sleeping car, which was the only one of the injured, brought up the rear. The only human remains found were three or four skulls and one finger.

STILL ANOTHER DEATH

Has occurred. Last evening at 8:30 o'clock Mrs. R. M. Clark of Booneville, O., passed away, a few hours after the body of her boy was forwarded to the same place. Her remains were sent last night. Yesterday afternoon a special train left here for Peoria with Adam Schumacher of this city. Dr. Hazen of Fort Madison, Mo., and Emma Alter were aboard. They are of the wounded who were in the Chatsworth Hospital. Homer Bond is dying. He has always been in poor health, and when under the influence of drugs. He was formerly a bridge carpenter on the Toledo, Peoria & Western, and is now keeping a grocery store at Colchester.

SUSPICIOUS

Superintendent Armstrong and Attorney Stevens arrived here at 11 o'clock this evening on a special train, coming alone and bringing ice. The trip has a very mysterious look. Mr. Stevens, when asked its object, replied that they had come to look about and see how things were. The train still stands at the station awaiting orders, while Messrs. Stevens and Armstrong are out in town. As the Coroner's jury does not meet until Tuesday, the arrival of the attorney at this hour is suspicious.

Passengers of the freight train which arrived here at 11:45 this morning reported that two strangers were arrested at Kentland yesterday on suspicion of setting fire to the bridge Wednesday evening, and that they were lodged in jail there. Kentland is forty-five miles east of Chatsworth.

Important, It True.

CHATSWORTH, Ill., August 15.—A statement was made by J. T. Bullard, a citizen highly respected, to a reporter to-day. Mr. Bullard says he saw section men carrying water into the house of the section foreman Wednesday afternoon between 11 and 1 o'clock, while before the Coroner's jury the section foreman and his men testified that they were on the road at the time mentioned. Mr. Bullard was disinclined to say much, but from remarks made by him it is inferred that the road was not examined at all on Wednesday, despite the instructions received by the section foreman from the road-master.

"The station agent, who is my neighbor, told me that extraordinary precautions had been ordered to be taken, as a heavy passenger train was expected."

MR. STILLWELL DEAD.

Mr. Stillwell, of Peoria, Ill., who was injured in the big railway wreck, died at Piper City this morning. The wounded here passed the night quite comfortably.

Two Incendiaries Arrested.

KENTLAND, Ind., August 15.—Two men have been arrested here on a charge of being the incendiaries who caused the Chatsworth horror. The authority given for the information is a man named L. Dobbs, who has been working for some time past at the Peoria & Western. Morris Kenoy, about three miles from here, Dobbs informed a correspondent that the two men were arrested on suspicion of having set the bridge on fire. They were given a preliminary examination before a justice of the peace, and the proof against them was considered strong enough to hold them in jail, where they are now confined pending further proceedings. Dobbs added that his employer, Kenoy, was present at the examination. The correspondent interviewed W. F. Terrell, the conductor of the freight train, and learned from him that the arrest had occasioned considerable excitement in State Lake. He also said that Yardmaster Jones of the Peoria & Western Railroad Company, who is stationed at State Lake, visited here Saturday evening, and confirmed the truth of the arrest.

BOLD BANDITS.

A Traveler in Montana Robbed of \$2,000 by Highwaymen.

THOMPSON FALLS, Mont., August 15.—C. W. O'Neill, D. Holman and John Hackett, the latter of St. Paul, left Thompson Falls between 8 and 9 o'clock for Murray, on the Coeur d'Alene, traveling horseback. O'Neill and Holman each had about \$2,000 on their persons, and Hackett had about \$50. When about two miles from town the mountain road was taken, and they were set upon by masked highwaymen and O'Neill and Hackett were robbed. Holman was not robbed, but he and his horse escaped with his money. The highwaymen immediately fled into the timber.

A Row at the "Flats."

Daniel Ryan and Robert J. Swain were before Judge Cady this morning on counter charges of disturbing the peace. Both are roomers at O'Brien's Place, otherwise the Court-house steps. Last Saturday night Swain says he felt Ryan rubbing his hands over him as though they were about to fight, and Ryan picked him up and threw him down the stone steps, breaking and badly bruising him. Ryan claimed Swain tried to hit him with a hammer first. Judge Cady had Swain's case postponed until 10 o'clock, and Ryan's case until 11 o'clock. Ryan was released, and Swain was committed to the rock pile.

Killed by a Car.

Andrew Blaha, a Bohemian, 35 years old, married, and residing on Eighth street, between Geyer and Allen avenues, while at work in the Missouri car shops at 715 this morning, was accidentally run over by a newly delivered car and instantly killed.

THE GRAND ENCAMPMENT.
Closing Up the Fund—The Executive Committee—Grand Army Council.
Chairman Sampson of the Committee on Finance received notice this morning from the Committee on Contracts and Expenditures that it was necessary to know very soon exactly what the entertainment fund is and taking him to complete the collections as soon as possible. The Committee on Contracts and Expenditures is endeavoring to make an appropriation of the funds to the different committees as fast as the committees want in the aggregate about 150 per cent of what the total fund is expected to be. It will be necessary to make these demands, but the committee cannot tell how much to scale them until it knows exactly what the fund at its disposal will be. No appropriations will be made against unpaid subscriptions. In accordance with the request of the Finance Committee on Contracts and Expenditures Mr. Sampson has requested the Finance Committee subscribers who have not paid that the committee intends closing up the fund. There remains to be collected about \$8,000, contributed by sixty-five subscribers. One or two of the railroads also are still to be heard from.

THE EXECUTIVE COMMITTEE

met at headquarters on Saturday afternoon. The report of the Committee on Badges, given in the Dispatch, was read and approved. The Program Committee was requested to designate thirty-six persons to take charge of the food for the Grand Army Council, and to assume the characters on them. The Program Committee of Major W. J. Price has proved. The Music Committee reported the report of the committee on the program. The "Iron-clad" rule adopted some provision for maintaining the membership in the Grand Army Council. The request of the Sons of Veterans that they be admitted to the Grand Army Council. This adds about 2,000 people to the Grand Army Council.

Mayor Garland and Capt. Mack of Springfield, Ill., are in the city to-day in consultation with Col. Cole of the Grand Army Council regarding "Springfield Day."

Ransom Post Women's Relief Corps met Saturday and elected several officers. The committee having the recent boat excursion to Chicago reported its results.

Ransom Post held a meeting Saturday night and mustered in five recruits, increasing the membership to 100.

The Executive Committee Women's Relief Corps meets this afternoon.

MAY BE LYNCED.

Henry Harris, the Colored Yeaslee Doctor, Convicted of Manslaughter.

LITTLE ROCK, Ark., August 15.—Intelligence from Desha County is to the effect that tremendous excitement exists in the negro community bordering along the river, owing to the conviction of Dr. Harris on the charge of having murdered James Venters. Harris is colored, and cures patients through the arts of voodooism. He is regarded by the majority of the negroes with suspicion and fear. He has killed himself in mystery. No one knows the secrets of his voodooism. He has killed patients with absolute faith in their efficacy. Venters fell ill and was attended by Harris. Harris, a local physician, pronounced him dead, and pronounced him suffering from cholera, and placed in jail. The arrest caused a sensation among both white and black. IS IT A CANARD?

ALLEGED SINKING OF AN AMERICAN
SCHOONER BY A CANADIAN CRUISER.

The startling report brought from Bouchette, New Brunswick—An American Fishing Vessel Fired Upon by a Canadian Cruiser—All on Board Supposed to Be Lost—The Report Discredited by the Dominion Authorities—No Report Received at Washington.

OTTAWA, Ontario, August 15.—A gentleman who arrived here Saturday evening from Bouchette, a small village on the Gulf of St. Lawrence shore of New Brunswick, tells a startling and sensational story, calculated to make the blood boil in every American citizen's heart. He says that a fishing schooner belonging to the United States has been sunk by a shot from one of the Canadian cruisers, and that all on board were lost. The statement appears incredible, but the liability of the person who communicates it can be depended upon. This gentleman has been spending some time in Bouchette, and is well acquainted with the inhabitants, but has no interest whatever in fishing matters, and can have no possible reason for repeating a story which he knows to be false.

He states that one night about eight days ago, while sleeping in a house in the village, himself and his wife were awakened by the reports of two cannon shots, which were fired from a cruiser in pursuit of the schooner.

The second shot struck one of the schooner's masts, which fell with the sails and turned the schooner completely over on her side, when she filled and sank immediately. Every man on board went down, there not being given a minute's time to launch a boat. The affair he states, was witnessed by a couple of Bouchette fishermen who carried the news home.

After seeing the terrible result of her shots, the cruiser put to sea and was soon lost in the night. There was no storm during the night, and the noise heard on shore could not have been caused by thunder. The reports were heard by nearly everybody in the village, who, in spite of their being short and sharp, at the moment attributed them to thunder. The gentleman relating this sensational story says that every effort is being made to keep it quiet.

There is no doubt, however, about the reports being heard and that there was no storm. The object of the authorities in suppressing news of such a kind for as long a time as possible can readily be understood, but, if true, the facts must come out, as it would be really impossible to keep every man on board the cruiser from telling something of the story as soon as he reaches port. If it transpires that an American vessel and her crew have been sunk in this manner, very grave complications will ensue. The number of lives lost would probably be from twelve to fifteen, possibly two or three more. Why the report did not come from Bouchette sooner is explained by the fact that it is an isolated place.

The Department of Fisheries have no information as to the alleged sinking of an American fishing schooner, with the loss of her entire crew, off Bouchette, New Brunswick, and express entire disbelief in the genuineness of the report and that, as published in the United States.

A CANARD.
MONTREAL, August 15.—A dispatch from Ottawa says the Fishery Department has no information regarding the story of the sinking of an American fisherman by a Canadian cruiser. The story is completely discredited here and looked upon as a canard. The simple truth is that such a report has occurred the department would have been immediately notified, as is always done, within twelve hours in case of seizures. Telegrams received from the Minister of Fisheries show that the Americans are not violating the Canadian regulations, and that he anticipates that by next year poaching will be almost unknown.

The Report Discredited.
WASHINGTON, D. C., August 15.—The Department of State has no confirmation of the story concerning the sinking of an American fishing vessel by a Canadian cruiser and the report is discredited.

The British Denial of War.

HALIFAX, Nova Scotia, August 15.—The unexpected appearance at Halifax last evening of the British warship Wrangler gives additional color to the report that men-of-war are to assist the Dominion fishery cruisers in the Gulf of St. Lawrence. The Wrangler is from the west coast of Africa, and was here to prevent any further trouble of her coming. When the naval officers were questioned about the proposed move of the warship, they said that they were not expected to arrive at Halifax, but whether that fact had any effect on the proposed move is not determined. The only statement that can be relied on is that the Wrangler is to be sent to the Gulf of St. Lawrence for the regular summer cruise for Charlottetown.

TROUBLE THREATENED.

A Mob Going to Evansville, Ind., to Lynch Wm. Bowen.

By Telegram to the Post-Dispatch.
EVANSVILLE, Ind., August 15.—Wm. Bowen, who outraged a little girl near Fort Brown last Sunday, has been brought to this city to escape mob violence. He had been jailed at Princeton, and reached here on Saturday morning. A party of twenty men came to the city this morning from Gibson County looking for the culprit. It is expected that more will arrive this afternoon, and serious trouble is anticipated if they attempt to take the prisoner. Extra guards have been placed around the jail, and no one but the officials are allowed to enter the yard. The Sheriff declares his intention of resisting with blood any effort to lynch the prisoner.

Wants the Bonus.

Margaret H. Shields entered suit to-day against Melvin L. Gray and David K. Ferguson, executors of the estate of the late Harry L. Parker, alleging, as a cause of action, that on the 7th day of March, 1887, she paid to Fisher & Co., as agents of the said executor, the sum of \$200, which was to be applied to the payment of the purchase money, \$100, which she had agreed to pay for the premises No. 2536 Pine street. The case defendants failed to give a perfect title to the property, and she is now suing for the \$200 and the amount of her expenses. She further alleges that she was deceived by the defendants in transferring said property and refused to make the "bonus," therefore she asks judgment for the sum of \$200 and \$25 additional which she paid for examining the title.

Searching for Gas.

By Telegram to the Post-Dispatch.
MATTOON, Ill., August 15.—The workmen drilling for gas in this city have just passed through a six-foot vein of this coal at 60 feet, and only two-thirds as deep as the vein now being successfully worked by the Mattoon Mining Company about a mile from the gas well. This gives great encouragement to the gas well. The company, who are sinking a second shaft at a point one-fourth of a mile from the first, and are now nearly four hundred feet down, are working in search of natural gas are working away diligently.

DANGEROUSLY STABBED.

A Dangerous Gift—Will Turn State's Evidence—A Juvenile Cannibal—Missouri Masters.

St. Jos, August 15.—A man named Frank Ashby of Cleveland, O., was found in a very critical condition yesterday morning about 5 o'clock. He was taken to the city hospital, where a couple of knife-wounds were discovered in his side. A new medical college and hospital will be built and opened up this winter by the endowment of \$150,000 left for that purpose by the will of the late Samuel B. Swarthout. It is said that George Stone, one of the prisoners of the Franklin County gang, who is jailed here for safe keeping, will turn State's evidence. A five-year-old girl named Katie Baldwin was assaulted last week near here, by a man named James McCartney, with whom the girl worked. The man has been arrested and the people are wild.

MEXICO, August 15.—The dry grass upon the land of the Lachland boys, sons of F. J. Lachland of St. Louis, was first by the sparks from a passing train on the Jefferson City branch of the Chicago & Alton yesterday morning. Hay on the value of \$2,000, belonging to George Brown, on an adjoining farm, and the fire consumed the house of George Morris, formerly of St. Louis, were totally destroyed. A colored woman named Ann Branstetter, who was locked in a room together with another woman, was rescued by a fireman from the Windsor Hotel. When she returned to her little brother alive, and it will probably die.

JACKSON, August 15.—Dr. Frederick Benckman was accidentally killed on the Hannibal bridge last night with a horse. He was riding a runaway horse.

SLATON, August 15.—Dr. W. A. Byrd of Quincy, Ill., died here yesterday morning from stroke. His remains will be sent to Chicago.

SEDAIA, August 15.—W. B. Voderer was elected delegate to the Grand Division of the American Society of Engineers by Division No. 19. The Grand Division will meet in Chicago on October 1st.

CAPE GRABERD, August 15.—A man named Kirk stabbed another man on his side, and the wounded man died last night.

DIXON, August 15.—Allen Powers, aged 18 years, was shot and killed here at a dance Saturday night by Wm. Nichols.

A Very Practical Joke.

Chas. T. Whitsett told a good one on himself and others.

He was about leaving the city and Rev. Mr. Tully's church and a few members quietly slipped in and had the preacher order, by express, a "rained letter" Bible to present the young lady. Surprise was expressed at the young lady, but she was not to be deceived. The Bible was a five feet square, weighed 110 pounds and expressed charges in proportion.

Six huge volumes were required for the Old Testament and two for the New, each 1520 pages, and several other Bibles.

Mr. Tully managed to get one of the eight parts to the church yesterday, which was an object of much curiosity.

Mr. Whitsett says the "library" will be for the use of the young lady to-day, but by freight.

Christian Nalle, a French Stone-Breaker, Furnishes the Police With Some Work in the Matter of His Death. Former Friend in the Lock-Up on Suspicious—A Queer Story and the Explanation.

At 4:45 p. m. Saturday, Christian Nalle, a Frenchman living at Cheltenham, was found lying on the tracks of the Missouri Pacific road near Clifton Heights station. He was considerably bruised, and it was supposed that while walking along the track he was struck by a train. The man had been working on the east-bound train which had passed some time previous. The man was taken to Cheltenham in a wagon, and sent from there to the City Hospital in an ambulance.

EAST ST. LOUIS.

Items of Interest From the City Across the Big Bridge.

O. H. Jamison and Ollie Barron, two well-known young men, were arrested this morning on charges of cruelty to animals, disturbing the peace and carrying concealed weapons. The charges were preferred by Joseph Kurus, a lively stable keeper, one of whose horses the two young fellows almost ran to death at an early hour this morning.

Kurus hired out the horse to George Henze, and when Henze had tried driving at an early hour this morning he turned the rig over to Jamison and Barron to bring back to the stable, instead of turning it over to Kurus. They went out on the Rock road and drove the horse at a rate which was enough to kill him, he was wild with rage, and he had a knife in his pocket. He was out after them about two hours before he was able to get them. They were taken to the police station and held for trial.
